

# ACCUBIN™

INVENTORY MANAGEMENT

## ACCURACY WHERE IT COUNTS

The entire AccuBin™ system is designed to deliver accuracy. Accurate data is critical for an accurate delivery schedule. Receive real-time notifications to avoid emergency deliveries. With AccuBin™, having inventory data at your fingertips helps you cut costs such as off-hour and weekend deliveries, haul backs, outages, daily physical inventory, etc.

## USER-FRIENDLY DASHBOARD

AccuBin™ delivers a single pane of glass view of your inventory that includes inventory levels and usage, consumption rates, and other operational information on your desktop or on-the-go! Similar to traffic lights, color-coded indicators are clearly defined for normal, warning, and critical levels. Using smart inventory management allows you to stay ahead of the demand curve.

## INVENTORY AT YOUR FINGERTIPS

AccuBin™ is easy to install, easy to use and provides all your necessary inventory data through a user-friendly app. With the ability to monitor your feed levels from anywhere, users are always in control. Remote inventory management allows you to proactively manage, track and access vital inventory data without having to touch the bin. Use AccuBin to keep your team in "the know".

## INVENTORY MANAGEMENT FOR FEED MILLS

AccuBin™ is a comprehensive, cloud-based, inventory management system that allows you to remotely monitor inventory through a user-friendly dashboard. This software provides a secure platform to view both real-time and historical trends in your inventory data. AccuBin™ is designed to eliminate the stress and guess work out of bulk solid inventory management.
