

The DryPro Series valve for bulk solids handling, especially suited for corrosive applications. By rotating the ratchet type handle the heavy duty nylon fabric diaphragm opens and closes like that of an Iris of a camera.

**SERIES : DPS**  
**PART Number : DPS-008**  
**MATERIAL : PP**  
**SIZES : Full 8" Orifice**  
**DIAPHRAGM : Nylon Fabric**  
**FDA Approved**

**Light Weight**

**Corrosion Resistant**

**Ideal for Dry Solids**

## Features

- ▶ **High Chemical Resistance**  
All Plastic Body of Glass Reinforced Polypropylene and Nylon diaphragm provides excellent corrosion resistance to a wide range of materials
- ▶ **No contamination of product**  
Valve cannot rust - Perfect for corrosive environment
- ▶ **Approved for Food**  
Materials of construction are food approved
- ▶ **Adjustable Flow Capacity**  
Orifice diameter is adjustable by rotating control handle. Position lock holds opening in diaphragm.
- ▶ **Easy Installation**  
Valve is lightweight and has 6 bolt holes for mounting onto 8" hopper flange

Excellent Corrosion Resistance

Tough Nylon Fabric Diaphragm to provide long maintenance-free operation
