1801 Parkway View Drive Pittsburgh, PA 15205

Description

The KOBOLD BGF metal-armored variable area flowmeter is ideal for difficult applications requiring high pressure, high temperature operation or low pressure loss. Its all-metal, armored design is available in stainless steel or PTFE-clad stainless steel. This flowmeter is unique in that its design employs a guided float and spring return mechanism that allows the BGF to be installed into both horizontal and vertical pipes. In standard configuration, the flowmeter is a purely mechanical meter suited for water and compressed gases in line sizes up to 3 inches. Electronic limit switches and/or an analog flow transmitter may be added if desired. Analog output is supplied standard with HART® protocol. Profibus-PA® is also available as an option. Available switches and analog outputs include those that operate via intrinsically safe methods of protection and may be used in hazardous areas where intrinsically safe installations are permitted. Foundation Fieldbus® is also available as an option. Custom designs for high pressure operation, special fittings and special materials of construction are available upon request.

Special Advantages

- Ideal for Difficult Operating Conditions
- Can be Used for All Directions of Flow
- A Large Spectrum of Wetted Materials
- Magneto-resistive Signal Transmission
- Special Design for High Pressure and High Temperature Applications

Technical Details

Repeatability:

2

Sensor

Wetted Materials	
SS Meas. Body:	316 L / 316-Ti Stainless Steel,
	316-Ti Spring
PTFE Meas. Body:	Hastelloy C-22 [®] , PTFE,
	Special Materials on Request
Process Connection:	ASME B16.5, NPT,
	Other Connections on Request
Nominal Pressure:	580 PSIG, ASME CI150 / 300
	(Standard) (BGF-S)
	230 PSIG, ASME CI150
	(Standard) (BGF-P)
	Higher Pressures Upon Request
	(Max. 5800 PSIG)
Process Temperature:	-40300 °F (BGF-S with Electrical Output)
	-40390 °F
	(BGF-S without Electrical Output)
	-40390°F
	(BGF-S with Option V / H / W)
	-40257 °F (BGF-P)

¹⁾ Not for model BGF-P (PTFE-coating)

²⁾ Please specify ranges with units of measurement

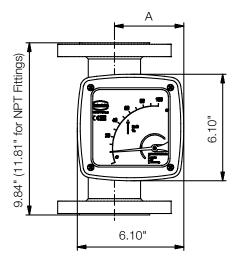

*Additional Information Required for Order:

To ensure proper operation, this product requires a completed application guide form to be submitted with any order. Please refer to the 'documentation' tab on the bottom of the product page for this product on our website in order to obtain the correct form. You can also contact your KOBOLD representative for this form.
